Communication Challenges & Resolutions:

S. No	Challenge Faced	Resolution / Action Taken
1	3 of the 5 assigned team members did not respond despite outreach via the official APSCHETeegram group	Followed the program's official guidance to proceed with project completion individually while keeping all 5 members listed on the team roster
2	Reduced team capacity meant a 2-person workload for a 5-person project scope	Divided work by task difficulty rather than by role, with the team lead handling all core AI/backend logic and the

		second contributor handling UI integration and documentation
3	Uncertainty about whether Skill Wallet's Kanban/Workspace required manual updates alongside GitHub submission	Reached out to the mentor directly during an active session for clarification rather than guessing
