

Project Demo Planning

Date	3 July 2026
Team ID	
Project Name	Voice-Based Concept Understanding Analyser (VBCUA)
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

S. No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction	Brief intro to the problem VBCUA solves and the team	0.5	Pudi Bhargavi
2	Problem Statement	Explain why spoken concept evaluation is hard to get feedback on	0.5	Pudi Bhargavi
3	Architecture Overview	Quick walkthrough of the pipeline (Whisper → Sentence-BERT → Librosa → Scoring → Gemini)	1	Pudi Bhargavi
4	Live Demo — Upload & Analyse	Record/upload an audio explanation, select a concept, click Analyse	1.5	Pudi Bhargavi
5	Results Walkthrough	Show transcript, scores, AI feedback, waveform, and PDF download	1	Kanderi Bhavana
6	Conclusion & Future Scope	Summarize what was built and potential future enhancements	0.5	Kanderi Bhavana

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Briefly state the problem: no objective way to evaluate spoken concept understanding
2	Solution Overview	Show the architecture diagram; explain the 4-module pipeline and Gemini integration
3	Live Feature Demonstration	Upload a real audio recording, select a concept, click Analyse, walk through the live results (transcript, scores, AI feedback, waveform) and download the PDF report
4	Q&A Session	Be ready to explain technical choices (e.g., why Sentence-BERT over keyword matching, why Whisper, how scoring is weighted)
